

FINANCIAL HEALTH QUESTIONNAIRE

Trillions of dollars evaporated in the stock market. Job losses run in the hundreds of thousands. Foreclosures (2.3 million last year) continue to rise. Some say 1 in 4 mortgages will go into foreclosure before the economy turns around.

This is not the time to just sit and do nothing, waiting for something to happen something to change. Don't wait. There is no time like the present to take back control of your finances and create a renewed significance to your financial security.
